Experience

Senior Software Engineer

Bengaluru, India

Wells Fargo

Dec 2022 – Present

- **Developed** and scaled Paze, a wallet system supporting 1M+ users, with Java, Spring Boot, and Apigee Gateway, integrating secure JWT authentication and token activation APIs.
- **Implemented** secure card tokenization and wallet linking features for seamless **payment** experiences, enabling users to manage multiple cards and wallets efficiently.
- **Automated** 95% of testing using JUnit 5, Mockito, and Cucumber (BDD), reducing bugs by 40%, and improved monitoring with Splunk and IBM APM through 5+ dashboards.
- **Contributed** to a Proof of Concept for Zelle Pay's one-click payment feature (saving 40% user time by reducing screens) and removing boilerplate code in Spring AOP, improving flexibility and user experience.
- **Migrated** legacy monolithic services to a microservices architecture, leveraging Drools for rule management, enhancing flexibility, and reducing hardcoded logic.
- **Demonstrated leadership** by mentoring team members, fostering collaboration across departments, and resolving 20+ production issues using critical thinking and Spring AOP.
- **Implemented** CI/CD pipelines with Jenkins, Gradle, and Maven for seamless deployments to PCF, ensuring efficient cloud-native application delivery, and earned the Microsoft Certified: Azure Fundamentals (AZ-900) certification.
- **Collaborated** with the product team to resolve 20+ production issues through **critical thinking** and effective troubleshooting, ensuring smooth operations and quick resolution of challenges.

Delivery Module Lead

Bengaluru, India

Mphasis Limited

Apr 2019 – Nov 2022

- **Led** the API Gateway team, optimizing API management for 50+ microservices, enhancing security by 30% with OAuth 2.0, JWT, and HMAC.
- **Designed** Kafka pipelines for real-time communication, processing 50K+ messages daily, and initiated ELK stack PoC with Filebeat and Logstash, creating 3+ Kibana dashboards.
- **Mentored** 5+ junior developers in microservices and API management, showcasing teamwork and leadership while onboarding 10+ customers to the CN platform.
- **Collaborated** with DevOps teams to build automated CI/CD pipelines using Azure DevOps and Jenkins, reducing deployment time significantly.
- **Enhanced** 4+ Track and Trace microservices using Java and Spring Boot, improving performance and deploying via Azure pipelines to PCF and Tomcat servers.

Software Analyst

Gurugram, India

Accenture Solutions

May 2015 – Jan 2019

- **Designed** and deployed 20+ microservices using Java, Spring Boot, and Spring AOP, improving scalability by 40%, and integrated REST/SOAP APIs with 99.9% uptime.
- **Optimized** response times and backend flow by leveraging Apigee for caching and secure API authorization, enhancing user experience.
- **Achieved** 90%+ test coverage with JUnit and Mockito, resolving 50+ production issues, reducing downtime, and improving system reliability.
- **Actively collaborated** in Agile sprints with cross-functional teams to deliver high-quality software on schedule and improve legacy code maintainability.
- **Refactored** legacy code for performance optimization, reducing latency in data handling and streamlining database queries.

Skills

Technical Skills

Languages: Java, JavaScript

Frameworks: Spring Boot, Spring (Core, AOP, Dependency Injection)

API Management: Apigee, RESTful APIs, SOAP Web Services

Security: OAuth 2.0, JWT, HMAC, SAML Authentication

Messaging Systems: Kafka

Databases: MySQL, JPA, Mongo DB, Redis Cache

Cloud Platforms: Pivotal Cloud Foundry (PCF), Azure

CI/CD Tools: Jenkins, Azure DevOps, Gradle, Maven

Monitoring and Logging: Splunk, ELK Stack (Filebeat, Logstash, Kibana), IBM APM

Testing: JUnit 5, Mockito, Cucumber (BDD)

Servers: WebSphere, JBoss, Tomcat

Project Methodologies: Agile (Scrum), Waterfall

Soft Skills

Leadership, Collaboration, Problem Solving, Communication, Adaptability, Critical Thinking, Time Management, Innovation, Teamwork, Attention to Detail

Certifications

Azure Fundamentals (Az 900)

Sep 2023

Microsoft

[Certificate](#) 

Education

National Institute of Technology, Agartala

Jun 2011 – Jun 2014

Masters in Computer Applications

- **GPA:** 7.35/10

- **Major Project :** Find Me - A GPS-based android application for tracking location

Chaudhary Charan Singh University, Meerut

Aug 2008 – May 2011

Bachelors in Computer Applications

- **GPA:** 6.67/10
